Cut Bank School District #15 Office of the Superintendent

Dear Homeschool Families,

I hope this message finds you well and enjoying a meaningful educational journey with your child. At Cut Bank School District, we are committed to supporting all students in our community, including those pursuing alternative education paths such as homeschooling. With that in mind, I am excited to introduce you to a powerful learning opportunity available through our district: Edgenuity.

What is Edgenuity?

Edgenuity is a fully remote, accredited online learning platform that offers a comprehensive K–12 curriculum aligned with state standards. Students can engage in core subjects such as math, science, language arts, and social studies, as well as a wide array of electives, Advanced Placement (AP), and career-focused courses. Lessons are interactive and paced to meet each student's individual learning needs, and the platform is accessible anywhere there is internet access.

Edgenuity works best for students in grades 6 –12, providing the structure and rigor necessary to help older students stay on track toward high school completion and post-secondary goals. Best of all, this program is offered at no cost to the parent or student when enrolled through the Cut Bank School District.

Because Edgenuity is hosted within our district, students remain part of the Cut Bank school community while learning remotely. This ensures:

- Access to certified teachers and academic support
- Progress tracking and regular assessments
- High-quality digital instruction tailored to Montana standards
- Seamless integration of learning into a homeschool schedule

Why Consider Edgenuity for Homeschooling?

Edgenuity provides homeschool families the best of both worlds: the flexibility of learning from home combined with the structure and resources of a public school program. It’s an excellent solution for parents seeking a comprehensive curriculum that meets graduation requirements, ensures academic accountability, and supports students at all ability levels.

If you are interested in learning more or enrolling your student in Edgenuity through the Cut Bank School District, please feel free to contact me directly at wsundby@cutbankschools.net or call the district office at (406) 873-2229.
